

CODE (max. 10 chars incl. spaces)	NOTE (see Comment Box)	NEW TITLE	ORIGINAL TITLE	NEW SCOPE NOTES	ORIGINAL SCOPE NOTES (only include if scope notes are to be changed)
Section A PLASDOC					
A12 Polymer Applications					
A12-V03B	new title	Respirators; oxygenating devices; blood handling apparatus and devices	Respirators; oxygenating devices; blood handling apparatus and devices; birth control devices		
Section B FARMDOC					
B04 Natural Products (or Genetically Engineered), Polymers					
B04-B04E	new scope note			Includes skin and hair as well as extracts.	
B04-F04	new title	Blood cells (general)	Blood cells	This code covers non-specific blood cells or when three or more specific types of blood cell are mentioned.	
B10 Aromatics and Cycloaliphatics (Mono and Bicyclic only), Aliphatics					
B10-A07	new scope note			Only 4 or more carbon monosaccharides with a free keto or aldehyde group together with their oxidised, reduced and substituted derivatives code here. Sugars in which at least one of the aldehyde / keto groups have been converted into an acetal / ketal (i).	
B10-A07B	new scope note			Change to "Includes ether and ester derivatives. Derivatives in which one or two of the hydroxy groups have been replaced by N additionally code B10-A07D. Derivatives in which one or two of the hydroxy groups have been replaced by atoms other than H or N	
B10-A07C	new scope note			Change to "Includes ether and ester derivatives. Derivatives in which one or two of the hydroxy groups have been replaced by N additionally code B10-A07D. Derivatives in which one or two of the hydroxy groups have been replaced by atoms other than H or N	
B10-A07D	new scope note			Change to "Used for 4 or more carbon monosaccharides with a free aldehyde or keto group (even if represented as a cyclic hemi-acetal in the source material) or an oxidised or reduced derivative thereof in which one or two of the O atoms have been replaced	
B10-A07E	new scope note			Change to "Used for 4 or more carbon monosaccharides with a free aldehyde or keto group (even if represented as a cyclic hemi-acetal in the source material) or an oxidised or reduced derivative thereof in which one or two of the O atoms have been replaced	
B12 Diagnosis and Formulation Types					
B12-M02D	new title	Adhesive sheet, sticking plaster, bandage	Sticking plaster, bandage		
B14 Pharmaceutical Activities					
B14-A02A6	new title	Papovavirus	Papovirus		
B14-D06	new title	HIV integrase inhibitor	Antitransferases general and other		
B14-E10C	new scope note			Including irritable bowel (e.g. IBS), as well as colitis treatment (inflammation of the colon).	
B14-E10C1	New scope note			REMOVED!	Includes irritable bowel syndrome (IBS).
B14-H01C	new title	Dermatological cancers	Bladder cancer		
B14-H01D	new title	Endocrine cancers	Brain cancer		
B14-H01E	new title	Gastrointestinal cancers	Breast cancer		
B14-H01F	new title	Genitourinary cancers	Buccal cavity and pharynx cancer		
B14-H01G	new title	Immunological cancers	Cervical / uterine cancer		
B14-H01H	new title	Musculoskeletal cancers	Gall bladder cancer		
B14-H01J	new title	Neurological cancers	Hodgkin's disease		
B14-H01K	new title	Oral and respiratory cancers	Intestinal cancer		
B14-H01L	new title	Other cancers	Kidney cancer		
B14-K01E	new title	Decongestant, expectorant, mucolytic	Expectorant, mucolytic		

CODE (max. 10 chars incl. spaces)	NOTE (see Comment Box)	NEW TITLE	ORIGINAL TITLE	NEW SCOPE NOTES	ORIGINAL SCOPE NOTES (only include if scope notes are to be changed)
Section C AGDOC					
C04 Natural Products (or Genetically Engineered), Polymers					
C04-B04E	new scope note			Includes skin and hair as well as extracts.	
C04-F04	new title	Blood cells (general)	Blood cells	This code covers non-specific blood cells or when three or more sepcific types of blood cell are mentioned.	
C10 Aromatics and Cycloaliphatics (Mono and Bicyclic only), Aliphatics					
C10-A07	new scope note			Only 4 or more carbon monosaccharides with a free keto or aldehyde group together with their oxidised, reduced and substituted derivatives code here. Sugars in which at least one of the aldehyde / keto groups have been converted into an acetal / ketal (i.	
C10-A07B	new scope note			Change to "Includes ether and ester derivatives. Derivatives in which one or two of the hydroxy groups have been replaced by N additionally code B10-A07D. Derivatives in which one or two of the hydroxy groups have been replaced by atoms other than H or N	
C10-A07C	new scope note			Change to "Includes ether and ester derivatives. Derivatives in which one or two of the hydroxy groups have been replaced by N additionally code B10-A07D. Derivatives in which one or two of the hydroxy groups have been replaced by atoms other than H or N	
C10-A07D	new scope note			Change to "Used for 4 or more carbon monosaccharides with a free aldehyde or keto group (even if represented as a cyclic hemi-acetal in the source material) or an oxidised or reduced derivative thereof in which one or two of the O atoms have been replaced	
C10-A07E	new scope note			Change to "Used for 4 or more carbon monosaccharides with a free aldehyde or keto group (even if represented as a cyclic hemi-acetal in the source material) or an oxidised or reduced derivative thereof in which one or two of the O atoms have been replaced	
C12 Diagnosis and Formulation Types					
C12-M02D	new title	Adhesive sheet, sticking plaster, bandage	Sticking plaster, bandage		
C14 Pharmaceutical Activities					
C14-A02A6	new title	Papovavirus	Papovirus		
C14-A06E	new title	Phytophthora	Phytophthora		
C14-E10C	new scope note			Including irritable bowel (e.g. IBS), as well as colitis treatment (inflammation of the colon).	
C14-E10C1	New scope note			REMOVED!	Includes irritable bowel syndrome (IBS).
C14-H01C	new title	Dermatological cancers	Bladder cancer		
C14-H01D	new title	Endocrine cancers	Brain cancer		
C14-H01E	new title	Gastrointestinal cancers	Breast cancer		
C14-H01F	new title	Genitourinary cancers	Buccal cavity and pharynx cancer		
C14-H01G	new title	Immunological cancers	Cervical / uterine cancer		
C14-H01H	new title	Musculoskeletal cancers	Gall bladder cancer		
C14-H01J	new title	Neurological cancers	Hodgkin's disease		
C14-H01K	new title	Oral and respiratory cancers	Intestinal cancer		
C14-H01L	new title	Other cancers	Kidney cancer		
C14-K01E	new title	Decongestant, expectorant, mucolytic	Expectorant, mucolytic		
C14-T03	New scope note			REMOVED!	Includes trace elements.

CODE (max. 10 chars incl. spaces)	NOTE (see Comment Box)	NEW TITLE	ORIGINAL TITLE	NEW SCOPE NOTES	ORIGINAL SCOPE NOTES (only include if scope notes are to be changed)
Section E CHEMDOC					
E11 Processes, Apparatus					
E11-F	new title	Addition or substitution reactions general/unclassified	Addition reactions general/unclassified		
E11-F03	new title	Alkylation, Acylation of C atoms; condensation; other carbon chain extension; reforming	Alkylation, Acylation of C atoms; condensation; other carbon chain extension;	Now covers reforming	
E11-H	new title	Exchange reactions general or unclassified	Substitution/Exchange reactions general or unclassified		
Section H Petroleum					
H02 Unit Operations					
H02-B01	new scope note		Molecular Sieves	Includes metal-organic frameworks	NONE
H08 Other Petroleum Products					
H08-D07	change title	Metalworking fluids	Rolling oils		
Section J Chemical Engineering					
J02 Mixing, Crushing, Spraying					
J02-A03	Change of title - new sub hierarchy	Emulsifying or dispersing	Emulsifying or dispersing agents		
J02-A03A	change title	Processes	Emulsification or dispersion processes		
J04 Chemical/Physical Processing Apparatus					
J04-A03	change scope	Colloid chemistry		For production of nanoparticles (sols) see J04-F02A	
J04-C02B	change title	Electrical	Conductivity	e.g. for resistance, conductivity, capacitance etc.	
J04-E	change scope	Catalysis		See N codes for catalysts, catalytic processes and applications	
J04-X04	change scope	Miniaturized reaction apparatus		See J04-F01 for microprocesses	
Section L Glass, Ceramics, Electro(in)organics					
L02 Refractories, Ceramics, Cement					
L02-G01	change title	Inorganic Oxides		Includes materials and products made therefrom, e.g. catalyst supports, molecular sieves, filters, diaphragms and membranes. For preparation methods, see L02-G12	
L02-G01A	change scope	Alumina		Includes aluminates, aluminosilicates, zeolites. See L02-G11 for production	
L02-G01C	change structure	Rare earth oxides	Yttria		
L02-G11	change scope	Alumina preparation		Includes production of aluminates, aluminosilicates, zeolites	
L02-G12	change title/scope	Preparation		For manufacture of materials and products made therefrom. See L02-G01 for claimed materials and products. L02-B01 (calcia), L02-B02 (magnesia), L02-G07 (conductive oxides), L02-G11 (alumina, aluminosilicates, zeolite) take preference.	
L02-H04	change scope	Carbon and graphite		See also J04-F	
L03 Electro(in)organics					
L03-G09C	change scope			Includes thermoelectric material	
L03-G09E	change title	Other optoelectronic material		Includes other non-linear optical materials not covered above
