

Application/Priority Number Searching

Tip

If you do not find the record that you are looking for, use the NBR command:

`nbr /ap 1992jp-0004512`

Step 1

Enter DWPI to access Derwent's World Patents Index database.

```
?file DWPI
```

```
Selected file: DWPI
```

Step 2a

Search for Application Numbers using the following format: YYYYCC-NNNNNNN/AP. For missing digits, backfill with zeros.

```
Search statement 1
```

```
?1992jp-0004512/ap
```

```
** SS 1: Results 1
```

Tip

All Japanese Application Numbers are searched using the Western Year.

Step 2b

Search for Priority Numbers using the following format: YYYYCC-NNNNNNN, again backfill with zeros for missing digits.

```
Search statement 2
```

```
?1979us-0000623/pr
```

```
** SS 2: Results 1
```

Step 2c

Use /AP /PR search field to search the Application and Priority Numbers.

```
Search statement 3
```

```
?1998wo-jp01501/ap/pr
```

```
** SS 3: Results 1
```

Step 3

Display search results using the PRT command.

```
?prt stdr
```

```
